---

## SUMMARY

Frontend Developer with nearly 2 years of experience at Zoho, focusing on building clean, user-friendly interfaces and improving user experience. Skilled in React.js, JavaScript, HTML, and CSS, with proven expertise in implementing features like RTL support, dark mode, and dynamic filtering. Adept at collaborating in Agile teams and passionate about frontend development, striving to create impactful and accessible web applications. Eager to contribute to a dynamic team and continue developing technical and creative skills.

---

## SKILLS

**Frontend:** React.js, Redux, JavaScript, TypeScript, HTML5, CSS3, Bootstrap, Tailwind CSS, Responsive Design

**API Integration:** RestAPI, OpenAI API, GitHub API

**Programming:** Core Java

**Tools:** Git, VS Code, Chrome DevTools, Postman, Agile Development, Figma

---

## WORK EXPERIENCE

### Full Stack Developer – Zoho Corporation | Aug 2023 – May 2025

- Developed 10+ reusable React.js UI components for Zoho Assist, improving interface consistency and maintainability.
  - Implemented RTL support for right-to-left languages (e.g., Arabic), ensuring accurate and accessible UI layouts for global users.
  - Created a seamless dark mode toggle using CSS variables, enhancing accessibility and user experience across the application.
  - Built dynamic filtering capabilities on the Reports page, enabling users to efficiently search and sort data.
  - Fixed 30+ bugs and optimized UI elements, boosting performance by 15%.
  - Collaborated in Agile teams with designers, QA, and backend developers, ensuring timely delivery of high-quality features.
- 

## PROJECTS

### PlanPal – AI Travel Planner

- Built a React and TypeScript app using OpenAI API to auto-generate personalized travel itineraries.
- Integrated Google Maps and Bootstrap for interactive and responsive UI experiences.

### Instagram Clone

- Developed a responsive Instagram clone focusing on routing, component structure, and UI design using React and JavaScript.

### LifeBoard – Visual Life Planner

- Created a productivity dashboard with drag-and-drop UI features using React, Redux Toolkit, and Tailwind CSS.
- 

## CERTIFICATION

**Meta Front-End Developer Professional Certificate** – Coursera (Completed June 2025)

---
